

# EXPLORING POLITICAL CAPACITY

## Key indicators and Bellwethers

The dashboard has five interactive overlays to be explored by clicking on the desired tab.

- **Main Dashboard:** Provides a visual depiction of the selected countries' relative political capacity (RPC), relative political reach (RPR), relative political allocation (RPA), and absolute political effectiveness (APE), for the years selected.
- **RPA Actual vs. Optimal:** Compares selected countries' actual levels RPA with that of the levels optimal for economic growth.
- **APE: Comparison:** Compares the APE of selected countries for the selected year.
- **APE Over Time:** Dynamically displays the changes in APE of each country since 1960.
- **World Values Survey:** Displays provincial world values of a selected country for the year specified.

### Filters

Indicator and Country Filters allow you to filter the data displayed by the visualizations. Countries can be selected individually or by level of development. Desired years can be selected based on the availability of the data in question.

**Indicator Filters** → Select Indicator View: RPE

YEAR: (Multiple values) | COUNTRY: (Multiple values)

**Description**  
Relative Political Extraction measures the ability of governments to capture resources

**Country Filters**  
Level of Development:  
 High  
 Medium  
 Low

TOP 5 COUNTRIES	
France	1.37
Finland	1.26
Belgium	1.22
Sweden	1.22
Denmark	1.20

For the World Values Survey Overlay, the 'Select View' tab shown below can be used to change the size of the bubble to designate either GDP per Capita or total population.
